VOCATIONAL EDUCATION AND TRAINING***

PROGRAM

Framework program on "Train the Trainer" within the framework of the SAGA for a VET project (the intellectual output O2 – O7)

The goal of this program is to provide comprehensive knowledge regarding theoretical and practical part of the education to the participants with respect to the selected program/profession. On the basis of the information received, the participants should be able to understand the analyses of the professions developed by the partners of the BBRZ-Group and EBG and also should be active in the development of various educational programs. (accreditation) in Slovakia. In addition, the participants of the program "Train the Trainer" are able to independently conduct training programs, and to pass on the acquired information to attendees of accredited educational programs in Slovakia.

SUBJECT TEACHING

THE STARTING POINT OF MANY GREAT CAREERS: APPRENTICESHIP AT MAGNA

Help shape the mobility of the future and bring new vehicle concepts onto the road thanks to your cooperation: Thanks to apprenticeship at Magna you can create the ideal conditions for this. Learn from the best and become one of the best. We offer you the opportunity to do so.

Nothing is more exciting and diverse than the automotive world and its innovations. At Magna, you can not only discover this world, but be more deeply immersed in it, keeping an eye on your future with the company. Many of our former apprentices are today at the forefront of an international development team and are responsible for various business areas.

We support your strengths

Everyone gets the same chance in our company: Whether you're a boy or a girl, your passion for the mobility of the future is crucial to us. With a state-of-the-art training facility, special training programs and great teams, we create the basis for many career success stories. Maybe yours soon, too!

SUBJECT TEACHING

The vehicle upholster, trained in combination with the motor vehicle technology, has a wide range of tasks. It ranges from the selection of the right leather to the quality testing of the material and elaborated processing by hand or with machines. In this case, perfect work and joy of dealing with the natural material are particularly important. Due to the double education, the future specialist has a broad basis for his / her further professional development.

WHAT YOU LEARN:

- Upholstery and covering of vehicle seats and headrests
- Upholstery made of different materials
- Processing and cutting of leather and other materials
- Sewing of leather parts and coverings by hand and with machines

SUBJECT TEACHING

Since the turn of the century the saddlery has its tradition in Wels. Today, Georg Winklmayr represents the fourth generation, leading the workshop with a specialist leather store.

Whereas it was formerly mainly heavy dishes and saddlery articles that were produced, the product range has changed enormously.

It was already the father, Hans Winklmayr who extended to pocket products. Today, the Winklmayr company represents special workshop for leather goods repairs of all kinds.

Custom-made cases (briefcases, rifle cases ...), bags (golf bags, tool bags ...), purses and belts are just as much a part of the range as interior fittings for oldtimers and new vehicles, sidecar and seats for all fabrications. Furthermore, special pack pockets for Harley Davidson and everything your heart desires; Riveted and interwoven and as a special feature leather trim (motives in leather, for example, on benches)!

SUBJECT TEACHING

Whether CABRIO or ROADSTER, whether VETERAN, OLDTIMER or CLASSIC, no matter what brand, we accept every challenge.

Our vehicle upholstery company is specialized in manufacturing of mass and custom-made products.

It covers the wide spectrum, such as covers, feeding, skies, spraydeck, convertible hoods, and much more, while using first class materials such as leather, various fabrics and PVC.
